

1 each Used Texas Crusher Auto-Balance Impact Crusher, Model 1900-500 S/N 1996-003, crusher was recently reconditioned with all new internals, wear parts and electric motors and has run about 720 hours since the reconditioning. The wear parts have 80% wear life remaining.

- Feed basket and feed tube
 - Rock shelf with anvils to ensure solid rock pack
 - Rotor with 4 ports; tungsten carbide wear parts mounted in steel supports; automatic balancing system balances rotor as rocks shift in the rotor; free rotating distribution plate.
 - Non-mechanical air return system to minimize dust
 - Twin 250 HP, 1800RPM, 460V, 60Hz, TEFC, Quarry Duty, High Efficiency Tatum Electric Motors mounted in Motor Stands and Installed on Crusher.
 - Hydraulic belt tension assembly with manual hydraulic pump, hydraulic cylinders on each motor stand. Pump has a gauge that eliminates the guess work on tensioning belts.
 - Crusher-to-Conveyor Discharge Box with door so the inside of the crusher can be accessed from bottom.
 - Five Gallon of Grease with Grease Pump.
 - Stairs, Guards for Top Inspection Hatch.
 - Tandem axle chassis with 5th wheel pin, brakes, flaps and jack legs.
- Equipment #305-0050
